

# CellerateRX Surgical Powder

**Cellerate<sub>RX</sub>**  
ACTIVATED COLLAGEN<sup>®</sup>(CRX<sub>α</sub>) *Surgical*

## UNPRECEDENTED CAPABILITIES

**The ACTIVATED COLLAGEN in CellerateRX<sup>®</sup> Surgical Powder is changing collagen's role in the operating room.**

CellerateRX's<sup>®</sup> **patented** activated collagen fragments (CRX<sub>α</sub>), are a fraction of the size of the native collagen molecules and particles found in other products, providing the benefits of collagen to the body.

CellerateRX, when used on a surgical wound, helps to provide a favorable environment for healing.

Surgical Specialties include:

General, Orthopedic, Plastic/Reconstructive, Vascular, Obstetrical/Gynecologic, Neurologic, Cardiovascular, Traumatic, Podiatric, Abdominal

## UNPRECEDENTED BENEFITS

### **Unprecedented Performance**

- ◆ CellerateRX provides collagen's benefits to the incision
- ◆ CRX<sub>α</sub> is 1/100<sup>th</sup> the average size of intact native collagen molecules

### **Unprecedented Range of Use**

- ◆ May be used with other dressings and modalities

### **Unprecedented Cost Savings**

- ◆ CellerateRX is a fraction of the cost of other leading collagen products currently being used in the operating room
- ◆ CellerateRX may be used with any secondary dressings, including gauze

### **Unprecedented Patient Friendliness**

- ◆ Collagen forms an occlusive dressing that reduces wound pain
- ◆ Collagen provides a favorable environment for reducing scarring

## PRODUCT FEATURES

### **CellerateRX<sup>®</sup> Surgical Powder**

- ◆ Approx. 95% Type 1 Collagen
- ◆ Absorbs up to 30x its own weight
- ◆ Conforms to any wound site and forms an occlusive barrier
- ◆ Biocompatible
- ◆ Synthetic free
- ◆ May be used in all wound phases
- ◆ No special storage requirements (protect from freezing)
- ◆ Sterile
- ◆ Easy to handle and deliver
- ◆ Encourages autolytic debridement
